

Napco Access Pro is a division of Napco Security Technologies Inc. (Nasdaq Symbol: NSSC) consisting of Access Control Brands Continental Access and E-Access

Continental Access CA4K CardAccess Software V1.2.x

Integration Devices BAS-IP

NAPCO Security Technologies Inc. 355 Bayview Avenue, Amityville, NY 11701 Telephone: 631-842-9400 Fax: 631-842-9135 www.NapcoAccessPro.com

Publicly traded on NASDAQ Symbol: NSSC

The CA4K Software "Device Integration" feature allows the software to interact with third-party devices such as BAS-IP and MadEye, in order to perform certain operations.

Enable Device Integration in System Settings

- To enable device integration, go to the System Settings > System-wide Settings > General tab, and enable the 'Enable Device Integration' option. Then press Save. (You must do a full download to all your panels/locks after enabling)
- Once enabled, under 'Configuration' you will see a new menu called 'Integration Devices' and also an 'Integration Profile' drop down on the general tab under the Configuration > Reader's screen.

Integration (Bas-IP) Configuration

- 1. Under **Configuration > Integration Devices**, Press **New** and Enter a **Device Name**.
- 2. Select Intercom as the Integration Device Type and BAS-IP Intercom as the Integration Device
- 3. Enter the Device IP Address along with the username and password for that device
- 4. Select the device **Time Zone** (This is the Time Zone of your BAS-IP Device)
- 5. Press **Save** when complete

Note: To find the Integration Device IP address, open a Windows command prompt and type "arp -a". This command will show you the connected IP addresses along with their MAC addresses. You can then locate the MAC address of the Integration Device from the list. The username and password are the Integration Devices administration credentials.

- 7. Go to Access > Access Groups and add the reader to an access group. You must set a "Time Schedule" for the reader. Then press Save.
- 8. After the programming is complete, you can test the integration profile by following the steps below.
 - In CA4K, go to **Personnel** to create a new badge
 - Enter a First/Last Name and Badge Number
 - Set an Activation Date Time and an Expiration Date Time. (If you leave both fields blank, the badge is activated immediately and expires in 20 years)
 - Click on the Access Group tab and assign the access group to the user
 - Press Save
 - After the new badge has been saved, login to your Bas-IP web portal
 - Go to Access management > Identifiers tab, where you should see your newly created badge information. Under Access Management > Access Restrictions you will see the Activation and Expiration Times for your Badge.
